P R E F A C E

WHEREAS, dengue is community based problem and that there is a need to intensify community awareness and participation to successfully minimize or eradicate the vector and the diseases;

WHEREAS, based on record, dengue cases continue to increase causing an alarming public health problem;

WHEREAS, dengue remains a cause of mortality and morbidity in the country. All regions, cities and municipalities are endemic for dengue and Municipality of Calamba, despite its being a highly progressive Municipality, is not spared from experiencing such an outbreak or epidemic;

WHEREAS, at present the only method or controlling/preventing dengue virus transmission is to combat the vector mosquitoes;

WHEREAS, considering that dengue is a vector-borne disease transmitted by an infected mosquito, produced in any artificial containers that hold clear stagnant water, dengue will spread easily;

WHEREAS, vector control can be effectively and efficiently implemented using environmental management and chemical methods as well as proper solid waste disposal and improved water storage practices, including covering containers to prevent access by egg-laying female mosquitoes.

NOW THEREFORE, on motion of Municipal Councilor, Hon. Emmanuel M. Cale, duly seconded by Municipal Council, Hon. Dennis M. Bunao, be it –

RESOLVED, as it is hereby resolved to enact this Ordinance:

ORDINANCE NO. 05-S.2020

Authored by: Hon. Emmanuel M. Cale

AN ORDINANCE PROVIDING FOR THE PREVENTION, CONTROL, REDUCTION AND MITIGATION OF THE MOSQUITO VECTOR OF DENGUE IN THE MUNICIPALITY OF CALAMBA, MISAMIS OCCIDENTAL, PENALIZING VIOLATIONS THEREOF AND FOR OTHER PURPOSES.

HON. JESUS C. ENERIO

HON. EMMANUEL M. CALE, M.D.

HON. REZIE C. LEONARDO

HON. RODRIGO T. GARCIA

HON. DENNIS M. BUNAO

HON. CARIDAD C. LANSANG

HON. JOSEPH C. MALAYAO

HON. CHERRY F. MAGSAYO

HON. KEN ALLEN B. LAWAS

HON. MA. ANGEL PRINCESS CANDA

HON. LUCIANO O. DUMANHOG

Section 1. Title. – This ordinance shall be known as the “Anti Dengue Vector Ordinance of Calamba, Misamis Occidental”.

Section 2. Definition of Terms. – as used in this Ordinance, the following terms are hereby defined as follows:

- 2.1 Dengue – an acute infectious disease caused by a flavivirus (species Dengue virus of the genus Flavivirus), transmitted by aedes mosquitoes, and characterized by headache, severe joint pain, and a rash – all called breakbone fever, dengue fever.
- 2.2 Stagnant Water – motionless water, no flowing in a stream or current. Also known as standing water.
- 2.3 Public establishments – hotels, motels, dormitories, commercial buildings, lodging and boarding houses, apartments, hospitals, libraries, museums, offices, malls, markets, supermarket, movie houses, schools, colleges and universities and other similar institutions
- 2.4 Vector – an organism that can carry a particular disease-causing agent (like a virus) without actually developing disease.
- 2.5 Place – land, building, residence, pier, watercraft, or any means of conveyance.
- 2.6 Public Places – parks, plazas, picnic grounds, camps, roads, cemeteries, and memorial parks, terminals, rest areas, and other open fields and enclosed areas of public assembly.
- 2.7 Integrated Control – controlling pests through the use of several different methods and procedures which are used to complement each other. These procedures may include the use of pesticides, environmental sanitation measures, natural as well as mechanical and biological methods.
- 2.8 Pesticide – any substance or product, or mixture intended to control, prevent, destroy, repel or mitigate, directly or indirectly any pests.
- 2.9 Urban Pest Control – pest control activities in all habitable areas but not to include agricultural pest control activities.
- 2.10 Urban Pest Control Applicator – an individual who uses or supervise the use of pesticides or any methods or services for urban pest control or implementation of a vermin reduction and mitigation program.
- 2.11 Fumigation – the act of applying, releasing or dispensing a toxic chemical so that it reaches the target organism primarily or wholly in gaseous state.
- 2.12 Misting – a fine spray of approved chemicals to control or eradicate the vector of the disease.
- 2.13 Urban Pest Control Operator – refers to establishment or entities engaged in the application of pesticides or any other methods or services for urban pest control or implementation or a vermin reduction and mitigation program.

Section 3. Vector Breeding Grounds Control. – building/structures under construction must not accumulate stagnant water and solid wastes thus all owners, managers, administrators and/or caretaker of household, schools, vacant lots, abandoned houses, tire trading/merchandise business, and all other building/establishment within the Municipality of Calamba are mandated to get rid of vectors breeding ground, particularly stagnant water, to avoid mosquito larvae (kiti-kiti), otherwise they are presumed to have violated this ordinance.

Section 4. Minimum Requirement for Compliance of the Constituents of the Municipality. -

- a. Water drums, pails, similar containers must be covered at all times;
- b. Old or discarded tires should be punctured or cut or use for appropriate purpose of keep away for storage;
- c. Unused tins cans, jars, bottles, pots and the like should be properly collected, stored or disposed;
- d. Gutters or roof must be maintained free from accumulation of rain water;
